SWEETEST MEMORIES AT UNISSA

Throughout my study at UNISSA, I met a lot of friends from different faculties who made me feel that we are like one big family. They would invite me to their functions, and at some other times, they would bring me to stay at their home during weekends and holidays. What even makes my time at UNISSA more precious is that my friends and I always stick together during ups and downs.

Moreover, I also feel fortunate to meet warm-hearted people outside the University who really take care of me as one of their family members, thus, making me feel that Brunei is becoming more comfortable like home.

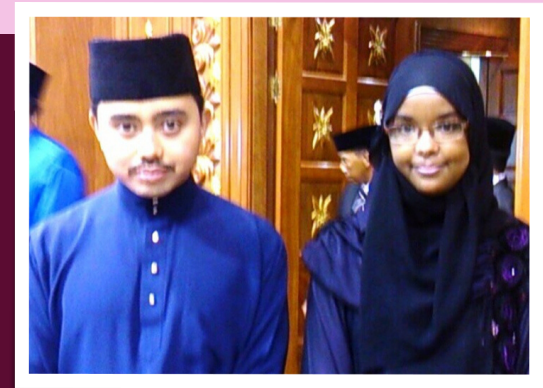

Another thing is, I had the opportunity of meeting and having conversations with the royal families in official functions, and not to forget, taking photos with them.

Therefore, instead of saying that those are my sweetest moments at the University, I would say that those are my memorable moments in Brunei Darussalam that I would never be able to forget.

TO FUTURE UNISSA ALUMNI

For students out there who are struggling with their study, I would say that, firstly, you need to instill interest and love in what you are pursuing.

Secondly, never give up on what you want to know with regards to the area that you have chosen.

As for me, I genuinely love to learn more in depth about Arabic Language. Back when I was in my first two years of degree programme, I didn't know much about Arabic grammars and was struggling much with that area. Then, I could have changed my major from Arabic Language to Islamic History, which is I am good at, if I wanted to, but I chose not to. I just diligently continued focusing on my goal which was to learn the standard Arabic very well. With the love and passion, alhamdulillah I was able to continue studying it until PhD.

Other than that, the motivations which I felt connected to, that had been given by the lectures from the Faculty of Arabic Language at UNISSA, regardless from different countries such as Algeria, Brunei, Sudan, Egypt, India, eventually I could finish my PhD in Arabic Language. Alhamdulillah..

FOR ALUMNI WHO IS LOOKING FOR A JOB

"As for me, currently I am conducting Arabic online tuition, which is not big yet, but alhamdulillah I could survive with it at this moment, while still looking for more wider opportunity and stable career.

Thus, for these alumni, I would like to advise you to not lose hope, and do not just lazying around until you get permanent or government job. Find out what you're good at, and try to apply it and work on it, and as long as it's halal, just do it, because who knows that it could be your blessings."
