# SWEETEST MEMORIES AT UNISSA

---

There's a lot!! But some of the sweetest memories I have are those with my friends and lecturers. With my friends, I always enjoyed the exam revision sessions we had as a group. It helped a lot because we really had limited resources back then (since we were UNISSA's 1st batch doing BSc in Islamic finance) in terms of reference materials and such. Somehow, we made each other feel full of knowledge despite the circumstance.

We had lecturers who were talented in their field, Alhamdulillah. This was crucial because the foundation for our understanding of all the courses in the programme would be based on what they taught us and they really did a wonderful job, Masha Allah.

# TO FUTURE UNISSA ALUMNI

- Have a goal in life and enjoy your studies and I mean, REALLY enjoy it. It'll be useful for sure, Inshaa Allah. It doesn't matter which programme you're following, it'll be beneficial.
- One of the main concerns of any students is whether there'll be employment after graduating.
  - Perhaps one way of reducing this stress is by establishing a wide network in your area of interest through profiles in LinkedIn, ResearchGate, etc even before you graduate. You never know what opportunities one might come across!

# FOR ALUMNI WHO IS LOOKING FOR A JOB

---

"I mentioned earlier about expanding your network even before you graduate. Get in touch with those in the industry and ask for advice from the experts themselves. This could be challenging but giving it a try will help you down the road."

"Perhaps you might just need a minor realignment in order to apply for that job opening. However you're doing it, make sure your effort is there 100%."

"When you put in the effort, you know what you want to do and how to do it. I hope those who're in search for jobs will settle for nothing less and wish you all the best in your search."
